 $_{(a)}$ FIG. 2

Field name	Content
VAT header	Logical volume identifier etc.
Basic structure	VAT entry 0 (Logical address of file set descriptor)
information	VAT entry 1 (Logical address of root directory FE)
Specific application structure information	VAT entry 2 (unused: FFFFFFFh) VAT entry 255 (unused: FFFFFFFh)
General—purpose application structure	VAT entry 256 (unused: FFFFFFFh)
information	VAT entry 473 (unused: FFFFFFFh)

(b)

169

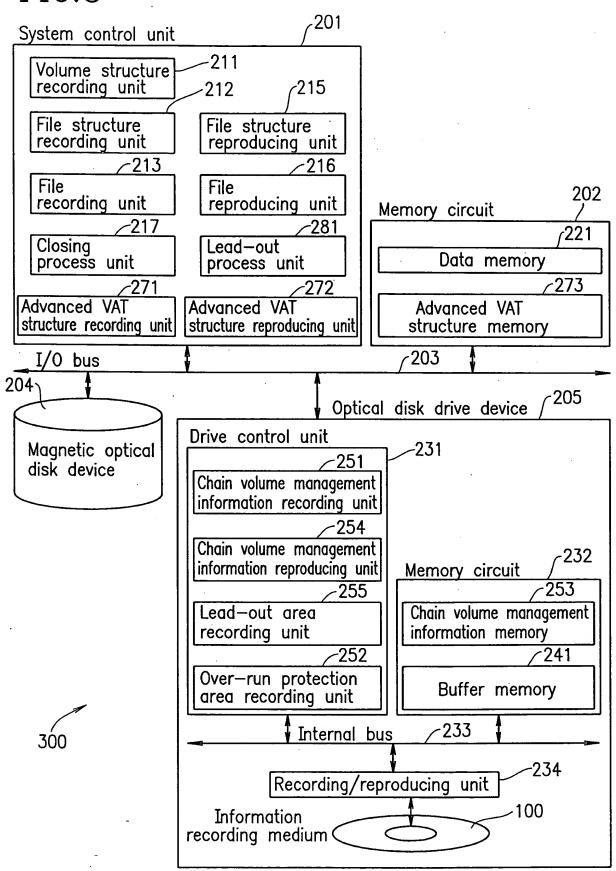

Field name	Content
VAT header	Logical volume identifier etc.
	VAT entry 0 (Logical address of file set descriptor)
information	VAT entry 1 (Logical address of root directory FE)
Specific application	VAT entry 2 (Logical address of directory (AV-Dir) FE)
structure	VAT entry 3 (Logical address of AVfile FE)
information	VAT entry 4 (unused: FFFFFFFh)
	VAT entry 255 (unused: FFFFFFFh)
Jappiication	VAT entry 256 (unused: FFFFFFFh)
structure information	VAT entry 473 (unused: FFFFFFFh)

(c)

175

Field name	Content
VAT header	Logical volume identifier etc.
	VAT entry 0 (Logical address of file set descriptor)
information	VAT entry 1 (Logical address of root directory FE)
Specific application	VAT entry 2 (Logical address of directory (AV-Dir) FE)
structure	VAT entry 3 (Logical address of AVfile FE)
information	VAT entry 4 (unused: FFFFFFFh)
	VAT entry 255 (unused: FFFFFFFh)
General-purpose	VAT entry 256(Logical address of directory (Data—Dir) FE)
application structure	VAT entry 257(Logical address of Datafile FE)
information	VAT entry 258 (unused: FFFFFFFh)
	VAT entry 473 (unused: FFFFFFFh)
